

SMART CREMATION

GEM Matthews introduces the concept of Smart Cremation, bringing all the advantages that modern automation can offer inside the crematorium. Crematorium operators can now benefit from the best technologies on the market to perform their work in maximum safety and increase the efficiency and control of the delicate phases of managing the casket and the ashes.

Smart Cremation offers the new generation plants many accessories for managing the service:

- › SEMI-AUTOMATIC ASH DISCHARGE SYSTEM
- › ID-SCAN
- › FULL AUTOMATIC LOADER
- › TICKETING SYSTEM
- › SMART GLASSES
